Specification Sheet for Center Fire Rifle Suppressor

Model name: Behemoth

Caliber: .50 BMG, .416 Barrett, .408 Chey Tac, .375 Chey Tac, .338 Lapua Magnum

Barrel length minimums: 22" on .50 BMG, 16" on .338 Lapua Magnum

Weight: 40oz

Length / Diameter: 2.2" x 15.75"

Material: Titanium core, tube, blast chamber, stainless rear cap and brake

Finish: Type 'C' Cerakote

Attachment: Muzzle brake mount, customer chooses threads

Average dB level at shooters ear: 136dB (including first round pop)

Description: As its title would suggest, the Behemoth truly is a beast. At nearly 16 inches of precision machined titanium, this large caliber rifle silencer is a sight to behold. In contrast, the suppressor module only weighs in at 40oz due to the high efficiency baffle structure and titanium parts, making a minimal impact on the big bore rifles for which it is designed. While the light weight makes it a veritable featherweight for its class, this suppressor brings even the mighty .50 BMG down to hearing safe levels at the shooter's ear. When it comes to suppressing big-bore long range rifles, the Behemoth is unrivaled.

Cleaning procedure for sealed silencers

Liberty Suppressors makes several sealed rifle silencers, including the Sovereign, Triumph, Goliath and Zulu integral. These silencers do not require cleaning by the end user, due to the nature of high pressure, high heat rifle rounds. Most carbon is either burned out entirely, or pushed out the end of the silencer as a part of the escaping gas column. What little is left doesn't close up the baffles, and as such is no danger to the user.

We do offer free disassembly and cleaning for any of these sealed silencers if it's been shot enough to meet our criteria. Our criteria is when the silencer reaches 150% of its original weight, due to the carbon filling it in. This means that if the silencer weighed 12oz at the time of sale, then we will clean it for you once it reaches 18oz. Most shooters never fire enough through the same suppressor to require cleaning.

Otherwise, the silencer can simply be installed and used, with no further maintenance needed.

Thank you for choosing Liberty Suppressors!
