

# Liberty Suppressors

## Specification Sheet for Premier 5.56mm Suppressor

**Model:** Triumph

**Weight:** 14 ounces

**Length / Diameter:** 7" x 1.5"

**Material:** Titanium / Stainless steel / Inconel

**Attachment:** Thread mounted (1/2-28 x .600")

**Sound Reduction:** 32dB

**MSRP:** \$799

**Description:** This suppressor is specifically engineered to fit the AR15 family of rifles. It mounts easily to the existing threads in place of the original flash hider and washer. It requires no tools for installation or removal. It is provided with a storage pouch made of ballistic nylon. As with all suppressors on an AR15 style rifle, this suppressor generates a tremendous amount of heat during use, great care should be exercised in handling the unit after any firing schedule. This suppressor is rated for barrel lengths of 7.5"\* and longer. This unit is full auto rated on 10.25" and longer barrels, although care should be taken to prevent excess heat during full auto use.

\*Accelerated wear will occur on short barreled setups due to particle impingement damage of the baffle faces and this is not considered a warranty issue.

## Cleaning procedure for sealed silencers

Liberty Suppressors makes several sealed rifle silencers, including the Sovereign, Triumph, Goliath and Zulu integral. These silencers do not require cleaning by the end user, due to the nature of high pressure, high heat rifle rounds. Most carbon is either burned out entirely, or pushed out the end of the silencer as a part of the escaping gas column. What little is left doesn't close up the baffles, and as such is no danger to the user.

We do offer free disassembly and cleaning for any of these sealed silencers if it's been shot enough to meet our criteria. Our criteria is when the silencer reaches 150% of its original weight, due to the carbon filling it in. This means that if the silencer weighed 12oz at the time of sale, then we will clean it for you once it reaches 18oz. Most shooters never fire enough through the same suppressor to require cleaning.

Otherwise, the silencer can simply be installed and used, with no further maintenance needed.

Thank you for choosing Liberty Suppressors!
